

**CLOUT MINISTERIAL ALLIANCE OF LOUISIANA**

The CLOUT Ministerial Alliance in New Orleans, Louisiana welcomes the opportunity to comment on the FCC's Docket 11-65 and to voice its unilateral support for the AT&T/T-Mobile merger. We know the kinds of barriers African Americans face when attempting to gain access to high speed wireless internet and the personal and societal inhibitors that accompany these barriers. We believe that broadband is the great equalizer and are confident that the marriage of these two companies will take us one step closer to making next generation wireless service a reality for all people. We share in the FCC and the Obama Administration's vision of ubiquitous access and want to see the people of our community have the opportunity to compete in the modern technology-based economy. This merger advances that goal.
